## **Eton Wick C of E First School**

## **PROGRESSION MAP: Fractions (including Decimals and Percentages)**

COUNTING IN FRACTIONAL STEPS							
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	
		Pupils should count in fractions up to 10, starting from any number and using the 1/2 and 2/4 equivalence on the number line (Non Statutory Guidance)	count up and down in tenths	count up and down in hundredths			
			RECOGNISING FRACTIO	NS			
	recognise, find and name a half as one of two equal parts of an object, shape or quantity	recognise, find, name and write fractions  1/3, 1/4, 2/4 and 3/4 of a length, shape, set of objects or quantity	recognise, find and write fractions of a discrete set of objects: unit fractions and nonunit fractions with small denominators  recognise that tenths arise from dividing an object into 10 equal parts and in dividing one – digit numbers or quantities by 10.	recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten	recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents (appears also in Equivalence)		
	recognise, find and name a quarter as one of four equal		recognise and use fractions as numbers: unit fractions and non-				
	parts of an object,		unit fractions with				
	shape or quantity		small denominators  COMPARING FRACTION	JS			
			compare and order		compare and order	compare and order	
			unit fractions, and		fractions whose	fractions, including	
			fractions with the same denominators		denominators are all multiples of the same number	fractions >1	

COMPARING DECIMALS							
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	
				compare numbers with the same number of decimal places up to two decimal places	read, write, order and compare numbers with up to three decimal places	identify the value of each digit in numbers given to three decimal places	
			ROUNDING	G INCLUDING DECIMALS			
				round decimals with one decimal place to the nearest whole number	round decimals with two decimal places to the nearest whole number and to one decimal place	solve problems which require answers to be rounded to specified degrees of accuracy	
		<u> </u>	•	RACTIONS, DECIMALS AND PER	· · · · · · · · · · · · · · · · · · ·		
		write simple fractions e.g. $\frac{1}{2}$ of 6 = 3 and recognise the equivalence of $\frac{2}{4}$ and $\frac{1}{2}$ .	recognise and show, using diagrams, equivalent fractions with small denominators	recognise and show, using diagrams, families of common equivalent fractions	identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths	use common factors to simplify fractions; use common multiples to express fractions in the same denomination	
				recognise and write decimal equivalents of any number of tenths or hundredths	read and write decimal numbers as fractions (e.g. 0.71 = $\frac{71}{100}$ ) recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents	associate a fraction with division and calculate decimal fraction equivalents (e.g. 0.375) for a simple fraction (e.g. <sup>3</sup> / <sub>8</sub> )	
				recognise and write decimal equivalents to $\frac{1}{4}$ ; $\frac{1}{2}$ ; $\frac{3}{4}$	recognise the per cent symbol (%) and understand that per cent relates to "number of parts per hundred", and write percentages as a fraction with denominator 100 as a decimal fraction	recall and use equivalences between simple fractions, decimals and percentages, including in different contexts.	

ADDITION AND SUBTRACTION OF FRACTIONS						
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
			add and subtract fractions with the same denominator within one whole (e.g. $\frac{5}{7} + \frac{1}{7} = \frac{6}{7}$ )	add and subtract fractions with the same denominator	add and subtract fractions with the same denominator and multiples of the same number recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements > 1 as a mixed number (e.g. $^2/_5$ + $^4/_5$ = $^6/_5$ = $1^1/_5$ )	add and subtract fractions with different denominators and mixed numbers, using the concept of equivalent fractions
		0.01112	FIDUCATION AND DIVISION	N OF FRACTIONS	' ' <sub>5</sub> - ' <sub>5</sub> - 1 ' <sub>5</sub> '	
		MUL	TIPLICATION AND DIVISION	N OF FRACTIONS	multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams	multiply simple pairs of proper fractions, writing the answer in its simplest form (e.g. $\frac{1}{4} \times \frac{1}{2} = \frac{1}{8}$ ) multiply one-digit numbers with up to two decimal places by whole numbers
						divide proper fractions by whole numbers (e.g. $\frac{1}{3} \div 2 = \frac{1}{6}$ )

MULTIPLICATION AND DIVISION OF DECIMALS						
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
						multiply one-digit
						numbers with up to
						two decimal places by
						whole numbers
				find the effect of		multiply and divide
				dividing a one- or two-		numbers by 10, 100
				digit number by 10 and		and 1000 where the
				100, identifying the		answers are up to three
				value of the digits in		decimal places
				the answer as ones,		
				tenths and hundredths		
						identify the value of
						each digit to three
						decimal places and
						multiply and divide
						numbers by 10, 100
						and 1000 where the
						answers are up to three
						decimal places
						associate a fraction
						with division and
						calculate decimal
						fraction equivalents
						(e.g. 0.375) for a simple
						fraction
						(e.g. <sup>3</sup> / <sub>8</sub> )
						use written division
						methods in cases
						where the answer has
						up to two decimal
						places

PROBLEM SOLVING							
EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	
			solve problems that involve all of the above	solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number	solve problems involving numbers up to three decimal places		
				solve simple measure and money problems involving fractions and decimals to two decimal places.	solve problems which require knowing percentage and decimal equivalents of $\frac{1}{2}$ , $\frac{1}{4}$ , $\frac{1}{5}$ , $\frac{2}{5}$ , $\frac{4}{5}$ and those with a denominator of a multiple of 10 or 25.
